JOB SUPPORT SERVICES

. . . is a program that provides the opportunity for individuals with disabilities to be placed into competitive employment with the appropriate supports.

"For my small business, this program has satisfied the important needs of, (1) freeing up trained sales and office personnel from routine, mechanical tasks and, (2) being presented to me as a complete package - one requiring almost no demand on me for set-up and training. If only every other aspect of our business were this easy."
Leslie Velz, Manager
W.L. DONEHOWER, Lewisburg

Financed (in part) by a grant from:
Commonwealth of PA/Office of MR
PA Developmental Disabilities Planning Council
Association for Retarded Citizens

"Hiring an extra person has given me more time to serve our customers, work on special orders and work on camera equipment. The J.S.S. job coach provided initial training and continues to support us as needed."
Dan Dombroskie, General Manager
LEWISBURG PHOTO SHOP, Lewisburg

"During the Christmas season we had the opportunity to employ two people as cart attendants to help us through a very busy time. We at Wal-Mart experienced great pleasure in helping others help themselves."
